

## Parking lot sense

- ☀️ Park in well lighted, heavily traveled areas.
- ☀️ When working late, contact the Public Safety Dept. for an escort to your vehicle.
- ☀️ When approaching your vehicle, have your keys ready and avoid searching your purse in open view.
- ☀️ Check the vehicle floor and back seat before entering your vehicle.
- ☀️ When you feel uncomfortable or threatened, use emergency security call boxes in the garages and parking lots.
- ☀️ Report and suspicious activity to public safety.
